

M3 Max is here!

The new M3 Max digitised speech aid has now arrived in the UK. This is the first ever device made specifically for the non USA market in response to demands from the UK, Europe and Australia.

With a screen size of 30.7 cm (12.1”) – the same as the V Max – this device has the largest screen of any digitised communication device making it ideal for those with visual difficulties, motor control of simply for those who a larger screen makes access and therefore communicating, easier.

The M3 Max is built in the same rugged magnesium case as the M3 and the V series, and is now available ex stock. The price is £2,995 excl VAT
