

**In this issue – some significant product changes, a “blast from the past”, a price reduction and we’re changing our logo.**

At the end of June there will be a few significant changes to the products we offer, some of which have been announced before and some our new announcements. The changes are:

**Dynamo – End of Life** – due to dwindling demand which makes manufacturing uneconomical plus the anticipated shortage of certain key components, the last Dynamos will ship at the end of June – if you need any please order by June 27<sup>th</sup> at the latest. We will continue to support and maintain Dynamos as long as possible and we do not envisage any problems in the foreseeable future. To celebrate this useful little device we are offering a special price of £1,590 instead of £1,690 plus a full 3 years warranty on the final ones we have in stock. Call Neil on 01384-446789 if you want to purchase one (or more) – “while stocks last” as they say!

**V and V Max – change to XP Pro only** – when we launched the V and V Max we used XP Home as our standard with XP Pro as a chargeable option. XP Pro is proving much the better system for internet and peripheral connectivity, support, stability and it allows connection to networks which is important in many school and college environments. So there will only be XP Pro available from the end of June. The XP Pro devices are £125 more expensive than the XP Home so it will add a small amount to the cost but we believe that extra is well worth it.

**iChat3 – End of Life** – the iChat3 has not been a very successful option as most clients have preferred the more feature based Palmtop3 – so again it is becoming uneconomical to maintain both products in the range, so iChat3 will be phased out at the end of June.

**A blast from the (recent) past:** We have ONE new **MiniMo** left in stock from when we discontinued the line – we held it back for a client who then changed their mind! Price was £2,245 – for sale at £1,850 – first come first served! It IS brand new and comes with full 12 months warranty. Please call Neil Waldron on the helpline (01384-446789) to reserve it.

**Boardmaker Activity Pad** – the CE version is now in stock and we have reduced the price from the original launch price of £649 to **£499**. This tool allows for unlimited digitally recorded messages on a low priced device.

We have changed our logo! We have used two separate logos for DynaVox and Mayer-Johnson in the past and we have now decided to combine them into one, so pictorially it hasn't changed that much (the blue surround has gone) but we now have both DynaVox and Mayer-Johnson names inside the logo. We will change documentation over time as items need reprinting or renewing.
