

SPECIAL NOTICE

DYNAVOX VACANCIES IN UK & EUROPE

MORE STAFF TO INCREASE SERVICE LEVELS!

DynaVox in the UK is responsible for direct supply and service in the UK and Ireland and also all International business through a number of independent distributors. As our business continues to grow we need to hire new Product Specialists to look after both our UK and International customers.

Specifically we now have the following vacancies:

1. A UK field based Product Specialist to cover Scotland and the North of England, specifically Cumbria, Northumberland and Tyne and Wear.

2. A UK field based Product Specialist to cover the Eastern part of England from Southern Yorkshire to North London, including East Anglia.

(both of these areas are a little flexible, although we are really looking for people based around the Southern Scotland/Northern England areas and East of the Midlands)

3. A European Key Account Manager to support a number of existing distributors in Germany, France, Holland, Italy, Spain and Scandinavia and identify new potential in other areas.

(ideally some language skills would be useful for this role)

All roles are sales based but with a considerable amount of field based training and support of customers. We welcome applications from individuals from within the AAC industry or those from outside the industry who have a sales or training background. Applicants should be computer literate to a level where they are comfortable with Windows based applications, Wifi and Bluetooth technology and with aspects of file transferring through a variety of media e.g. cable, memory stick, CD Rom etc.

We have used Dynamic E-Voices for this because from past experience many of our contacts in the world of AAC know others who would be interested in this type of vacancy.

If you know anyone who may be interested they can get more information by calling David Morgan on 01384-446565 or James Rowe on 07720 598913. CV's should be sent to David Morgan by email at recruitment@sunmed.co.uk or to David Morgan, c/o Sunrise Medical HR Dept, High Street, Wollaston, West Midlands DY8 4PS. The closing date is June 20th and interviews will take place on June 26th in the West Midlands.
